How to Find Rare Marathi Books on Internet Archive:

Simple & Effective Tips

Jay Shivray,

First of all, thank you for opening this PDF.

Before we proceed, I would like to mention our Maratha Archives page on the Internet Archive. You can visit that page to find Selected Books relating to Maratha history. Please note that only Limited books are uploaded there; the Remaining Collection is available on our Private Telegram channel.

Here is the link to our page :-
https://archive.org/details/@kalpesh_shende

Instructions for joining our Telegram are provided in the profile description of our Internet Archive page. However, I have also included a brief summary of those instructions here :-

1. Search for "Maratha Archives Joining Group" on Telegram. Once you find the group, join it. You will see several folders; start by going to the "First - Read This" folder. There, you will find a message in both English and Marathi. Read it carefully, as terms and conditions apply.
2. Introduce yourself in the "Messages From Members" folder.
3. Within 24 hours, we will review your introduction and notify you of our decision regarding your joining to the channel.
4. You may also check the "Reason" folder, which explains the necessity of this process. If you are not a Marathi speaker, please translate that paragraph to read it.

Note :-

This compilation is intended exclusively for serious “Researchers & Students” of Maratha history. If you have a genuine interest in Rare Documents and Historical Research, please visit our Internet Archive profile or Telegram Group to complete the joining process for our Telegram Channel. We grant access only to selected and dedicated Scholars & Researchers.

Thank you

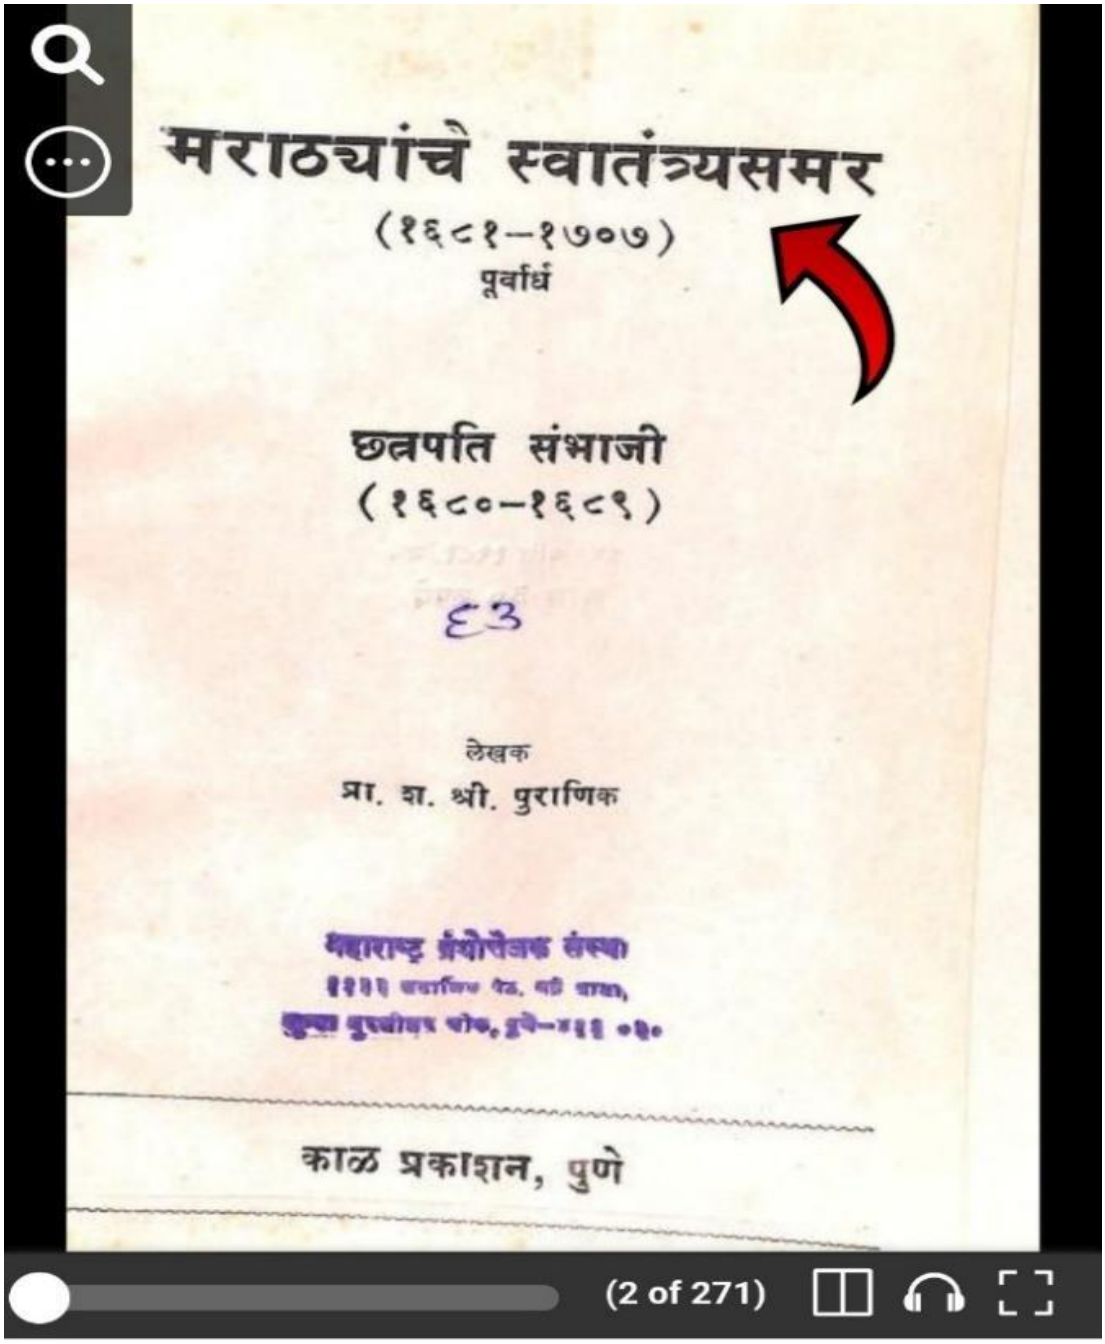
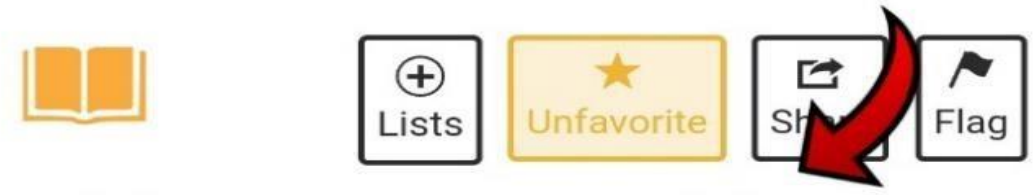
If you are a regular user of Internet Archive, you might have noticed that even when you enter the correct file name, the desired file often doesn't appear in the search results. The main reason for this is that the file is available on the website, but its name is either written in a different format or the uploader has given it an entirely different title.

For example, if you search for ChhatrapatiSambhaji or ChhatrapatiRajaram, you might come across the books **Marathyanche SwatantryaSamar Part 1-2.** This happens because the uploader has not used the proper title and instead has named the file based on their own convenience. Similarly, there are numerous rare books available on the Internet Archive, but they are difficult to locate.





ChhatrapatiSambhaji

Topics Marathi MGS-CIS

Collection ServantsOfKnowledge; JaiGyan

To solve this issue, I have discovered some simple and effective tricks that can help you. I hope they will be useful to you.

Tricks to Search Books on Internet Archive :-

1. **Search in both Marathi and English :**

   Type your text in both Marathi and English. Many times, the file is uploaded but is titled either entirely in Marathi or in English.

2. **Use Google Search** :

   Search Archive ms marathi on Google. Click on the first link that appears. This will take you to a page where you can find over one lakh plus Marathi books.

   Select the Search Metadata option on that page, and you will find books related to your query.
   Select Search Text Contents, and you will see all books that contain the text you searched for.

3. **Search for Marathi MGS-CIS :**

   In the archive's search tool, type Marathi MGS-CIS. This will bring up 900+ scanned Marathi books covering a variety of topics.

4. **Use Text Search and Search Text Contents :**

   Sometimes, even after extensive searching, you may not find the exact book you are looking for. In such cases, if the word you searched for is present within a book, the Search Text Contents option increases the chances of finding it.

5. **Check the uploader’s profile :**

   If you come across a rare book, click on the uploader's profile, which is visible below the file. The uploader might have uploaded more rare books. Revisit their profile after a few weeks or a month, as they may have uploaded new books during that time. Mark their uploaded books as favorites so you can easily access them later in the My Favorites section of your account.

6. **Creator & Subject in Search bar**

   To find a specific Subject, type **Subject:"Author or Subject Name"** in the search bar.

   To find a specific Creator, type **Creator:"Name"** in the search bar.

Examples:

- Subject:"Shivaji Maharaj"
- Creator:"Ganesh Hari Khare"

7. **Book/Documents** and **Text Content**

Type a book name, author, or specific phrase in the search bar. You can find these results under the **Book/Documents** and **Text Content** sections, where the exact words you searched for will be located within the books.

Eg :- शहाजी महाराज
